The 2019 Pennsylvania Data User

Start Date: 5/9/2019 8:00 AM

End Date: 5/9/2019 4:00 PM

 The PA State Data Center presents the annual Data User Conference, presenting sessions about data collection, analysis, and information about the US Census in Pennsylvania.

 The Pennsylvania State Data Center serves as Pennsylvania's official source of population and economic statistics. In addition to acting as Pennsylvania's liaison to the Census Bureau, the PaSDC is the state's representative to the Federal-State Cooperative Programs for Population Estimates and for Population Projections.

 For your lunch selection, please contact us with any additional dietary restrictions you may have. We are happy to make any accommodations necessary.
