2016 Pennsylvania County Data Books

The Pennsylvania State Data Center's 2016 County Data Book series draws on data from the 2010-2014 American Community Survey and various other data sources. A data book is available for each of Pennsylvania's 67 counties and offers the most comprehensive data available. Data is primarily presented in table format for easy analysis; however, there are also reference and thematic maps, where appropriate.
