## DATA CENTER NEWS

### Observing Breast Cancer Awareness Month

October is Breast Cancer Awareness Month, an annual campaign aimed at increasing awareness of the disease and supporting those whose lives are affected. This year we're exploring the spatial variation of the female breast cancer incidence crude rate and the percentage of women in poverty by municipality in Pennsylvania in 2015.

#### *Breast Cancer Incidence Crude Rate and Percent of Women at or below Poverty Level in Pennsylvania, 2015*

**Produced by PASDC**

U.S. Census Bureau, 2011-2015 ACS  
PA Dept. of Health, 2015 Breast Cancer Incidence & Population  
These data were provided by the Division of Health Informatics, Pennsylvania Department of Health. The Department specifically disclaims responsibility for any analyses, interpretations, or conclusions.

Follow the link below to our interactive map(s) showing the rates in 2015. The multivariate map shows the overlay of both rates where pink indicates a higher breast cancer incidence crude rate, blue indicates a higher poverty rate, and purple indicates that both rates are high. Hover over each municipality for more information and use the "layers" feature to toggle between the multivariate map or single maps.

## Recent Reports from the Data Center

### **New Report: Healthcare in Pennsylvania, 2016 Update**

Our report on trends in healthcare by age, sex, race/Hispanic origin, and income has been updated to the most recent data. The accompanying dashboard has also been updated to 2016 data. Click [here](#) to read the full report.

### **Previous Report: 2017 American Community Survey 1-Year Estimates**

This report highlights trends in the newly released estimates from the American Community Survey as they relate to Pennsylvania. New data and changes to existing data are also highlighted. Click [here](#) to read the full report.

#### **2017 American Community Survey (ACS) 1-Year Estimates**

The most detailed look at America's people, places and economy with new statistics on income, poverty, health insurance and more than 40 other topics from the ACS. The 1-Year Estimates cover areas with population sizes of 65,000 or more.

#### **2017 American Housing Survey (AHS)**

The nation's most comprehensive housing survey, providing current data on a wide range of housing subjects. Topics unique to the AHS include characteristics and physical condition of the nation's housing units, indicators of housing and neighborhood quality, and home improvement activities.

#### **2018 International Data Base (IDB)**

The International Data Base (IDB) is a series of estimates and projections that provide a consistent set of demographic indicators for more than 200 countries and areas. An update to the 2018 International Data Base occurred for 23 countries for which new data from censuses, surveys, and administrative records were available, including Denmark, Guatemala, Nigeria, Portugal, Saudi Arabia, and the United Arab Emirates.
